## Cortile Gallery to Host GREEN Exhibit in 2009 Season

Spring has sprung in Provincetown. Trees are in full bloom, tulips sway in the sea breeze, and businesses are back at work preparing for this season's return visitors and residents. Cortile Gallery's 2009 Events Calendar is well underway and has an exciting line up of gallery events, including its first eco-conscious art exhibit and two new online art exhibits.

To kick off the gallery season, Cortile Gallery's *Shades of Spring* exhibit, currently viewable on the gallery exhibit level, is sure to delight any visitor's quest for spring color after a long, gray winter. *Shades of Spring*, highlighting the fall & winter works of A. Paul Filiberto, opened April 1st and will continue on exhibit until May 19th. To view the works in this exhibit, visit the Cortile Gallery's website at [cortilegallery.com](http://cortilegallery.com).

Cortile Gallery will host its first gallery opening for the 2009 season on May 19th, from 6-8 pm, for its artists' new works exhibit *Through the Artist's Eyes*, which will run through June 16th. On May 24th, Cortile will launch the first of its monthly online exhibits, the *5 x 10 on the 24*, representing 10 works each by five different artists on the 24th of every month from May through November.

In June, everything is coming up green. Cortile Gallery's artists rise to the challenge to create eco-conscious art for Cortile's June 19th exhibit *Artful Green: The Extraordinary Life of Ordinary Places & Things*.

## Gail Fields Oils

New to Cortile, North Truro artist Gail Fields brings a diverse and exciting body of work to Cortile Gallery. Fields' impressionistic gardenscapes and landscapes provide the viewer with an expressive journey through the world of nature, whether it be her popular mosaics of 6 inch canvas garden scenes or her larger serene views of Cape Cod landscapes. Though Fields has been showing her artwork for the past 30 years in galleries throughout the East Coast region, her most recent work marks a distinct change in style. Fields cites this change from her studies under Ann Packard's tutelage. Fields states of her work with Packard, *"Anne has guided and inspired me. Your paintings should speak with your own voice; paint paintings not pictures; let your painting sing, she reminds me. I have unveiled my new voice, and my paintings are singing my new songs."*

Fields is slated for an individual show at the Cape Cod Museum of Art, June 13 - July 19, 2009. To view Gail Field's artwork at Cortile Gallery, visit the gallery website [cortilegallery.com](http://cortilegallery.com)

**BRENDA SILVA** is a native of Provincetown, MA, located at the furthestmost tip of Cape Cod and home to one of the oldest artist colonies in America. Silva can often be found in her Provincetown studio where she renders paintings based on her Portuguese heritage and life surrounded by the sea and sand, as well as equine art and commissioned pet portraits. Much of Silva's artwork is influenced by her experiences of having lived the harsh life that a fishing family faces as well as influences from her passions for riding horses and music. Though music became Silva's chosen field of education, art has always been a secondary love and one that she has continued to develop over the years. Silva later seriously pursued her creative talents as an artist, opening her art studio to the public. Silva continues to nurture her skills to the present day. It is upon her canvas where Silva's expression for her love for animals and the sea has evolved into the dynamic pieces of artwork available to her collectors today. In the artist's words, *"I paint what I know from my home and life."* One only needs to view Silva's works to sense her long connection to Provincetown and the life upon its seas and shore. ## Jason Lee Jewelry

COMING SOON! Jason T. Lee is a life long resident of Massachusetts who has spent most of his adult life visiting Cape Cod. Lee's discovery that he was a talented jewelry maker was born out of his desire to fulfill a need for unique, one-of-a-kind men's jewelry. Men's jewelry soon evolved into women's jewelry fueling Lee's passion and drive for providing superior quality pieces of wearable art for men and women. Contemporary, more than trendy, Lee's pieces of jewelry are designed with the customer and quality in mind. Lee chooses to use sterling silver, natural stones, Swarovski crystal and other items to individualize each piece of art he creates. Look for Jason Lee's jewelry on the gallery's website in late May 2009.

## Robert Harding Oils

Provincetown Harbor Morning,  
o/b

Artist Robert Harding was born in Provincetown, MA. Harding studied under the tutelage of the renown impressionist painter Henry Hensche at the Cape Cod School of Art. Harding also studied with Samuel Oppenheim in Florida. Harding now resides in Wellfleet, MA with his wife where he continues his passion for art.
