

Adding Events

After logging in go to the admin panel and click add new event

Add a title and a description for your event then set the start date and time. If there is no start time just leave it blank.

A screenshot of the 'Events' form in the WordPress admin panel. The form has a title 'Events' and four input fields: 'Start Date' with the value '03/03/2017', 'Start Time' with the value '06:30 PM', 'End Date' with the value '03/03/2017', and 'End Time' with the value '09:30 PM'.

Set a featured image for your event. If you don't add one the generic Cortile Gallery log will be used. This is the thumbnail that is shown on the homepage and
